

## The First of the Series!

Your Texas sinker can be transformed into nail sinker in a zip! This screw-type nail sinker is hard to come off and eases slipping through cover.

## Don't permit the lag of the worm!

A hold power of the worm is improved outstandingly by the adoption of the screw keeper. A worm is hard to slip off even if you cast it in the heavy cover or do a big jumping action.

We recommend the ring for wacky wearing.

### How to use the SCREW CAT

1. SCREW CAT
2. let go through to
3. Bullet Sinker.
4. cut the head and bend it with pliers.
5. screw into a worm.
