

Supports Big Worms! Works in Deep! The Big-bass-capturing Model!

ZInch Wacky "King Cobra" is a sized-up version of Inch Wacky.

The hook size is scaled up to #1/0. There is a lineup of head weights from 1/16oz to 3/16oz.

King Cobra best-matches with straight worms over 6" , and works fantastically with ultra-long worms over 10" . It shows power not only in shallow, but also in deep ranges. The hook with a sharp bend to make V-piercing possible, lower weight positioning, and big head actions are all scaled up.

King Cobra will mesmerize big bass with more dynamic actions!
