

Unmatched Presence and Extraordinary Fish-Attracting Power

The Magnum Blade is a truly oversized Colorado blade—something rarely seen in the market. Its intense water displacement, strong vibration, and powerful flashing drastically enhance the action of any lure it is attached to. Whether used on spinnerbaits, topwater plugs, or big baits, it transforms ordinary lures into high-appeal, high-performance fishcatching machines.

With its extreme size and hammered finish, the blade delivers the signature Colorado-style water turbulence and flashing without unnatural glare. It provides explosive drawing power and a dynamic action change that elevates your lure's effectiveness to a whole new level.
