

Slower and more compact, P.D. Chopper Dead Slow now has the long-awaited Jr. size.

Light-density Space Metal enables dead-slow retrieving, which has won many accolades for P.D. Chopper Dead Slow. Now we have added a light-weight version.

The newly-adopted short shank hook goes along the small trailer.

The slower swimming and the compact shape have made it possible to attack shallow areas or the picky bass that prefers small baits, which was hard with the conventional swimming jigs.

ピーティー・チョッパー・ジュニア 改 テット・スロー

ORETACHI made

Perfect for super-slow retrieving!

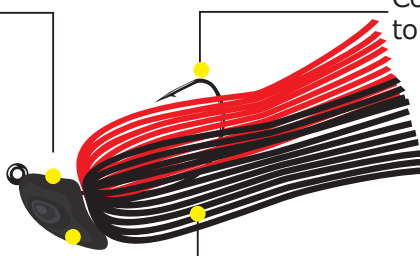

Adopting the space metal which enabled super slow retrieving.

Comes with a short shank hook to match the compact trailer.

The semi-flat head always introduce retrieving feelings into the angler.

Using a silicon material superior in the durability.
