POWER INCH-WACKY

For Super-heavy Cover! The Most Effective Model in the Inch-Wacky Series!

The Inch-Wacky series is a must-have jig head for jig head wacky rig that has brought astounding results to many anglers. Power Inch-Wacky is for attacking heavy covers during bait tackle or PE power finnese. This is the most powerful model in the series, packed with detailed ingenuities for a bold attack into the cover and for V-stabbing which reduces the tearing of a worm and brings out sharp actions.

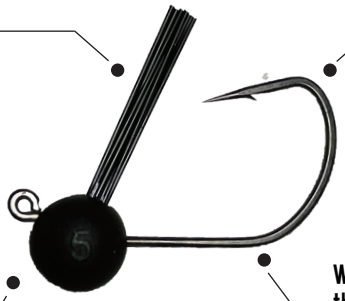
パワーインチワッキー
Power Inch Wacky

Produced by 俺達。

Our proud brush guard delivers great hooking and snag-less attack and you can adjust the volume of the brush guard according to your weights.

The sharp throat design makes V-stabbing possible, which is unique to the Inch-Wacky. Holding the worm securely reduces the tearing of the worm and helps actions to be sharper.

V刺しOK!



TC-coated hook with a high penetrating power for a better hooking rate.

RYUGI JAPAN TC COAT

The heavy tungsten head is really compact which allows easy passing through covers.

With the hook diameter greatly increased and the shape made compact, this original powerful hook is the best choice for cover attack.
