

Easy, Straight Piercing into Finesse Worms! Worms can Freely Move around!

The super-light hook with an arrowhead worm keeper maintains the worm in a nice posture, while letting it lively move around. Compatible with slender/finesse worms. The ultra-light carbon material enables more delicate approaches that tap into the worm's buoyancy. Our innovation with an arrowhead-like tip, Arrowhead Worm Keeper allows you pierce straight into skinny worms without damaging it. Tremendous hooking with little escape, this new offset hook is perfect for finesse fishing.

- Recommendation rig
Weight less, Drop shot rig, Split shot rig, Light texas rig, Light Calorina rig, etc
- Supports tough condition
