

## The Revolutionary Jig Head Frees up Your Line in Any Angle!

In pursuit of a jig head best for jumping jig head, we put elements, such as quick up-and-down movements and protecting knots, into one part. That part, Bumper Ring is combined with a jig head to create this product.

The eyelet, set with the Bumper Ring, functions like a joint, which helps this innovative jig head change the angle of your line in any way you want!

### ■ Benefits of the Joint Effect

- 1 Quickens vertical movements --- Sharper actions during your jumping jig head
- 2 Smoother vertical movements --- Lifelike wobbling actions make it very effective for mid strolling
- 3 With the knot protection, line breaks are drastically reduced --- More chances of catching big fish!

Very novel idea, the Bumper Ring Quickens vertical movements! And with the knot protection, line breaks are drastically reduced!

In pursuit of a jig head best for jumping jig head, we put elements, such as quick up-and-down movements and protecting knots, into one part. This works well in jumping jig, swimming and mid-strolling.

Comes with the original hook from the dependable maker, Owner.
