

The Smallest Inch Wacky that Works even for Ultra Finesse!

It not only has the same potential as the standard Inch Wacky series,

but also works fantastically with small straight worms, and supports more finesse conditions.

In addition to regular black hooks, red hooks are also available. With three sizes at your disposal, you can now choose the best one in “head rotation “.

1. By eliminating a keeper, weight balancing on a pin point is made possible.

2. The head is nothing but Space Metal, producing highly-responding actions.

3. The hook is shaped to securely hold the worm, cutting down instability and slipping of the worm.

4. Though small, the hook is shaped with wide gape.

The focus of this design is hooking. The tendency of slippage, common among small hooks, has been resolved, sharply reducing miss-bites.

Weight	Type	Hook Size	/a pack	Price (Tax-excluded)
1/64oz (0.45g)	—	3	5	550 yen
	Red Hook	3	5	550 yen
1/48oz (0.6 g)	—	3	5	550 yen
	Red Hook	3	5	550 yen
1/32oz (0.9 g)	—	3	5	550 yen
	Red Hook	3	5	550 yen
