

A roughness skirt appearance!

The special skirt adoption hiding the new possibility of the swimming jig!

One side of the skirt becomes the roughness processing like a caterpillar.

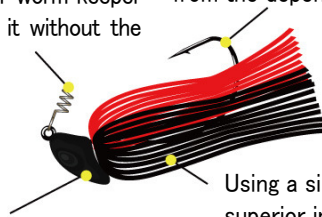

P.D. CHOPPER
[ピーディー・チョッパー]

Comes with the original hook from the dependable maker, Owner. "Cork screw worm keeper" and regular worm keeper are used. For the regular setting, use it without the cork screw worm keeper.

The semi-flat head helps stand at the bottom and easily divert cover while swimming. Made of silicon which is durable and with flare.

Using a silicon material superior in the durability.

Setting① [PD Setting]

Cork screw worm keeper is used. It works well in heavy cover areas.

Setting② [Normal Setting]

It works well at the open area or light cover areas.
