

Wow Series!

Set It Directly on the Eyelet. Changing Sinkers Is So Easy!

It is a revolutionary sinker that you can directly attach to the eyelet of Tateai Hook. Just turn it around and you are done. Use it to tune the weight for big baits, too. Painted in matte brown.

How to Attach Eye Shot

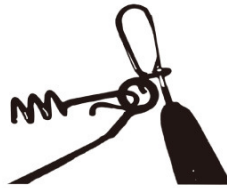

1 Have Pile Driver, "Deka Eye" and Eye Shot sinker ready.

2 Using the tip of screw on Eye Shot sinker, round up the eyelet of Deka Eye.

Because it is carved a weight, it is easy to assort in the tackle box.

3 Just twist Eye Shot around to attach it to the eyelet.

4 Changing weights is also done in a second.

Weight	/a pack	Price (Tax-excluded)
1/16oz (1.8g)	2	350 yen
1/8 oz (3.5g)	2	350 yen
3/16oz (5.0g)	2	350 yen
1/4 oz (7.0g)	2	350 yen
3/8 oz (10.5g)	2	350 yen
