

So Many Arrangements! Poke Anything into this Soft Sinker

Soft Shot is a sinker made of the third tungsten, Tungsten Elastomer. This new product is springy. You can easily poke a hook or anything into it. Experiment on it. Add it at the base of a hook to make a jig head, Use it to tune weights, or as a weight that makes tapping sound on your hand-made lures. The sky is the limit. The material made of tungsten is eco-friendly. Use it up with your clever ideas.

For example...

- For sea fishing
As a microminiature jig head! As a sinker for long casts!
- For bass fishing
As for split shot sinker!
As tuneup for your lures!
For the quantity increases of the jig!

Depending on your ideas, It has infinite possibility!
